DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 1-3 are rejected under 35 U.S.C. 103(a) as being unpatentable over Malek in view of Gentry.

Malek discloses a device for cleaning a carpet comprising a cleaning produce comprising an active ingredient, an aerosol dispenser, the dispenser comprising a reservoir for containing the cleaning product and a valve member for delivering the cleaning product to the carpet. Gentry teaches a housing or package for receiving cans from which the cans are removable from the housing or package. It would have been obvious to one having ordinary skill in the art at the time the invention was made to have provided housing or packaging for the device of Malek as taught by Gentry in order to sell the product of Malek in bulk as done in stores such as Costco or BJ's Wholesale Club.
